

# Deleting 'Cache Files' in Internet Explorer

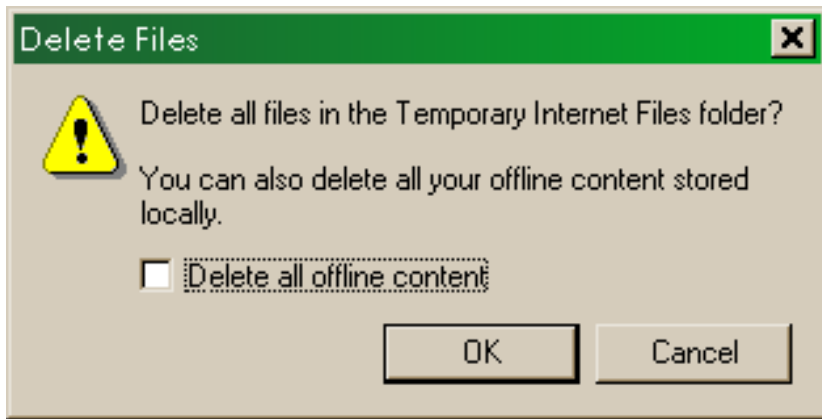

When you are browsing the web, files are saved to your network drive space to enhance the speed of your web browser. These files can take considerable space so you may wish to periodically purge the files. To delete the Internet Explorer cache files:

From the 'Tools' menu, select 'Internet Options'.

On the 'General' tab, select 'Delete Files' in the 'Temporary Internet files' section.

Select 'OK' to delete the files.
